

## JD Edwards Solutions

*Managing Complex ERP Environments to Reduce Costs and Improve IT Operations*

call (480) 315-3000, or visit us on the web at [www.OneNeck.com](http://www.OneNeck.com)

*OneNeck helps customers host, manage, upgrade and maintain JD Edwards EnterpriseOne applications. We leverage your application to improve business processes, reduce costs and provide better support for management decision-making.*

OneNeck Ranked No. 1  
ERP Management Outsourcer  
by the Black Book of Outsourcing  
Three Years in a Row!

With unmatched expertise, proven experience and excellent customer references, we're well qualified to manage your JD Edwards environment. In fact, OneNeck offers:

- One of the top independent JD Edwards hosting and management firms in North America
- Extensive AS 400 experience
- "Impossible to find" CNC resources
- Senior-level functional consultants with experience on JD Edwards complete suite of modules: Finance, Distribution, Manufacturing, and Human Capital Management, including EDI.

When it comes to your JD Edwards environment, OneNeck provides custom tailored solutions — on any platform. Our team of highly skilled specialists works across all JD Edwards application releases and is experienced in a wide range of industries. Pair this with the team's ongoing education and training on JD Edwards applications, round-the-clock support, JDE-specific Sarbanes-Oxley Section 404 expertise and guaranteed service levels. In fact, we'd put our JD Edwards hosting services team up against anyone in the industry!

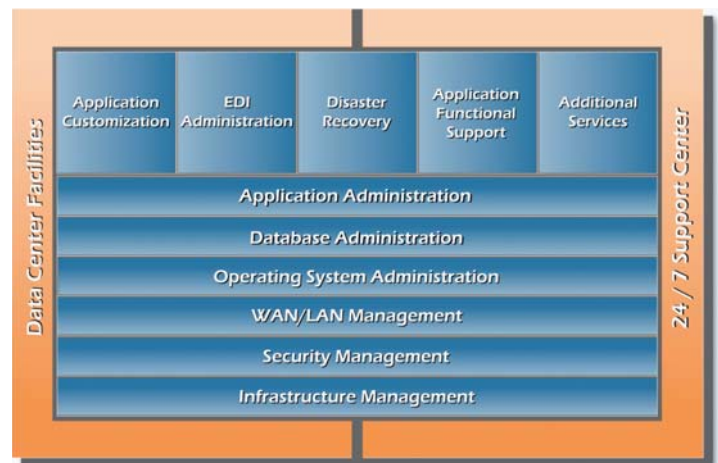

Since 1997, customers have relied on OneNeck for their tactical and strategic IT initiatives. Our track record in ERP systems management translates into meaningful benefits for mid-market companies. Through this experience, we're able to help companies concerned by the Oracle-led wave of consolidation in the enterprise software market. With significant in-house resources as well as depth of experience, OneNeck can mitigate the serious concerns customers may have regarding the future of their investments, systems support, updates and migration paths.

OneNeck's partnership with industry-leading solutions providers allows us to provide a complete, flexible and customized solution. Through a robust delivery model, we enable mid-market companies to maintain complex ERP environments on a cost-effective and predictable basis.

Plus, we've developed an "out of the box" decision tree model that can assist our customers in selecting the best migration path. Using our ROI-based model, we deliver the most business value while minimizing the migration risk.

### ONENECK'S JD EDWARDS SOLUTIONS

We provide a variety of solutions that deliver maximum value to our customers' JD Edwards EnterpriseOne, Xe, and JD Edwards World environments. These solutions include:

...continued

"During our vendor investigations, we discovered OneNeck's customer references were excellent. Once we narrowed down the list of potential service providers based on technical expertise, OneNeck's customer satisfaction ratings differentiated them from their competitors."

Kevin Smith  
Chief Information Officer  
Spyder Active Sports

OneNeck designs "the best total solution" one customer at a time. It's a "configure-to-order" philosophy which tailors every solution to each customer's specific situation. And, we're able to scale our solutions as your business grows.

We fully understand the complexity of your JD Edwards environment. Because it's so important to your business, we know you need an outsourcing partner with proven technical and business knowledge. That's why you'll gain immediate access to highly skilled IT professionals. Give us a call today for a free assessment of your ERP environment.

In addition, OneNeck completes a stringent and comprehensive third-party examination each year for our SAS 70 Type II certification. This certification ensures specific control objectives are appropriately designed and functioning.

As a Certified Oracle Hosting Service Provider, OneNeck's partnership highlights our ability to provide managed services for business and consumers. This partnership demonstrates our competency based on past performance to deliver best-of-breed solutions with increased levels of support and engagement based on your increased investment and commitment to Oracle. OneNeck is able to support all Oracle ERP products, including PeopleSoft Enterprise, JD Edwards EnterpriseOne, JD Edwards World, Hyperion and Oracle e-Business Suite.

"OneNeck is an ideal partner for Skanska. OneNeck's focus on customized managed services provides us with capabilities that are world-class, yet very cost effective. They are the clear leader in providing highly-tailored JD Edwards application management to global businesses."

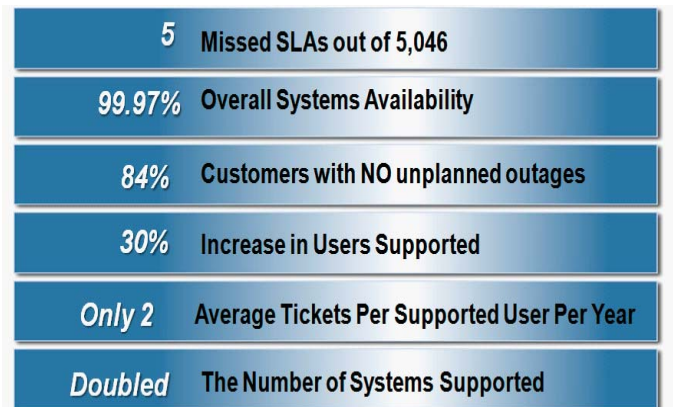

Kevin Hutchinson  
Chief Information Officer  
Skanska USA Building Inc.
