

# Microsoft Office 365

## Empowering Your Collaborative Workforce

**Your employees, customers and partners are working differently – with mobility and cloud services tools that make them more productive and help them grow. Enter Microsoft Office 365.**

Office 365 is a best-in-class, integrated, powered-by-the-cloud productivity set of tools that allows your employees to work how they want. With Office 365 you can :

- **Protect what you value most (Worry less)**  
Office 365 helps you be secure in knowing you're managing and protecting your company's devices, data and budget while staying competitive.
- **Work from anywhere (Work easier)**  
With Office 365, let everyone work the way they work best (in and out of the office), using trusted business applications such as Word, PowerPoint, Excel and Exchange while benefiting from a consistent experience across every device, including iOS and Android devices.

- **Collaborate (Work together)**  
Office 365 gives you the flexibility to easily access and edit documents in real time across devices and platforms (so you and your team are always working with one version of the truth), combined with the collaboration boost that comes from knowing you can share documents securely and hold productive meetings from multiple locations.

Office 365 includes all the content creation applications you and your customers know and use:

**Word, Excel and PowerPoint are also available via Office Online.**

And Office 365 provides a set of services that enables communications, collaboration, data access and storage across your devices:

- Outlook
- OneDrive for Business
- Skype for Business
- Yammer

Online or offline, at their desks or on the go, from multiple devices – you can help ensure that your staff and customers gets to what they need – when and where they need it.

Don't forget that with Office 365, Microsoft provides updates to features and services on an ongoing basis.

### **OneNeck, Your Trusted Partner**

As Microsoft Cloud Solution Provider (CSP), OneNeck offers an ecosystem of services that takes Office 365 further than just deployment in the cloud, including :

- **Feature-Rich Set of Collaboration Tools-** Access to a broad and deep set of applications and services that provides a flexibility and choice in how to connect, share and communicate.
- **Expertise-** Extensive deployment experience and deep technical knowledge of Microsoft products.
- **Expert to Expert Support-** Our Microsoft-certified experts work with a customer's IT administrator to support the Office 365 platform. We act as a single point of contact, and work with Microsoft on your behalf to ensure your issues are resolved.
- **Advanced Services-** Hands-on consulting and technical support including feature add-ons, migrations and hybrid deployments.
- **Simplified Billing-** Ability to provide all required Office 365 licensing for an organization, on one consolidated invoice.

Already have direct subscription with Microsoft for Office 365? We can help you make the best use of the Microsoft licenses you already have.

In addition, by partnering with OneNeck for Office 365 our Microsoft-certified experts work with your IT administrator to deliver comprehensive technical support for your Office 365 platform.

We act as your single point of contact, and work with Microsoft on your behalf to ensure your issues are resolved.

### **Office 365 Plan Options**

Multiple plans are available for companies of any size. Let us help you select the right Office 365 plan for your business.
