

Cisco Webex Meetings

Meet with anyone, anywhere, on any device

Be more productive, collaborative, and get more done faster using Cisco Webex Meetings, the proven, industry leader in web and video conferencing.

Hold regular meetings with anyone – regardless of location. Manage projects, host sales meetings, and make faster, more informed decisions by keeping everyone on the same page with meetings that allow everyone to see, hear, and view the same information at the same time. And host engaging and creative sessions with customers, colleagues or internal teams.

Meet Online Just as if You Were Face-to-Face

Use high-definition video to improve communications, relationships, and productivity by enabling people to meet face-to-face to share documents, presentations, and applications. Anyone can join the meeting by phone or integrated audio on their computer, regardless of the location.

Launch or join a meeting using a web browser, mobile phone, or tablet device. For video optimized meetings available from any device, use Collaboration Meeting Rooms Cloud as your personal, always on meeting place.

Count on Cisco for Highly Secure, Scalable and Reliable Service

The Webex Meetings solution offers a highly scalable, reliable service. Webex Meetings is delivered as software as a service (SaaS) through the Cisco Webex Cloud, and is easy to roll out and scale as the organization grows.

The Cisco Webex Cloud is a global, enterprise-scale network designed specifically for highly secure delivery of on-demand applications. It offers a scalable architecture, consistent availability and multilayer tenant security validated by rigorous independent audits, including SSAE-16 and ISO 27001.

Make Online Meetings Easy and Productive with These Powerful Features

- **Web document, application and screen share**— Share content or your entire screen with remote attendees in real time. Pass control to attendees so they can share content, or annotate yours.
- **Interactive multimedia experience**— Engage your audience by incorporating multimedia into your presentations, including PowerPoint, Flash animations, audio and video files.
- **Integrated video**— View videos from up to seven attendees. Or select full-screen mode to view the active speaker in the main video panel, with other participants' video displayed as thumbnails. And for the most detailed video view, select the expanded full screen option to view the active speaker in true high-definition, 720p display resolution.
- **Personal rooms**— Meet even faster in your own permanent, personalized video conferencing space. Schedule ahead or leave your door open and let people drop in.

Improve communications, relationships and productivity by enabling people to meet face-to-face to share documents, presentations, and applications.

- **Collaboration meeting rooms cloud**— Make it even easier for others to join you in your personal room through the Webex meetings. People can join your video conference through any standards based video system.
- **Integrated audio**— Offer an interactive meeting experience with Cisco Webex meetings integrated audio or a third-party audio options. Choose toll or toll-free, or call-in or call-back. Or give attendees the option to connect using voice over IP (VoIP), or your computer's built-in audio. Wideband audio support using VoIP provides outstanding audio quality – even over low bandwidth networks.
- **Call-me**— Have your meeting call you. Simply enter your phone number when the meeting begins and the meeting calls you – no dialing, no passcodes.
- **Active speaker**— Focus on who's talking with active speaker technology, which automatically displays the current speaker's video in the active speaker window.
- **Meeting recording, editing and playback**— Record meetings for future reference, training or demonstrations.
- **Desktop integration suite**— Initiate meetings from Microsoft Office or Outlook, Lotus Notes, and a variety of instant messaging solutions.

- **One-click meeting access**— Start a meeting and invite attendees instantly from your desktop, taskbar or favorite applications.
- **Easy meeting invites**— Send invitations and reminders using an automated phone call, text message, email from your local client or instant messaging.
- **Enterprise integration**— Use single sign-on to access Webex Meetings. Take advantage of integration and interoperability with Cisco collaboration products such as Cisco Jabber® and Cisco TelePresence®.
- **Cross-platform support**— Meet with anyone on all common operating system platforms. These can include Windows, Mac and Linux.
- **Mobile support**— Enjoy a rich meeting experience with audio, video, and content sharing across Android, iPhone and iPad, BlackBerry 10 and Windows Phone 8 devices.
