Why OneNeck for Data Storage

OneNeck offers comprehensive data storage support services. We have the expertise and resources to handle onsite and cloud-based data storage systems. With OneNeck, you also have the advantage of accessing ReliaCloud®, our hosted private cloud, which can host your data storage platform in a secure hosted environment with zero downtime, all backed by OneNeck's 100 percent Service Level Agreement (SLA). We also have the experience and the expertise you need for storage integration, troubleshooting, and performance tuning.

There are many reasons to rely on OneNeck for your data storage needs. Here are just a few to consider:

Uptime SLAs – OneNeck prides itself on providing reliable services. Our uptime SLAs are backed by security, power, and redundancy requirements that not only meet but exceed expectations. All of OneNeck's managed services offer high performance and high availability, and are financially backed SLAs.

Flexibility on demand – Our security and compliance services are fully customizable, tailored to meet specific business needs today, and changing business needs tomorrow.

Frees up valuable in-house resources – In-house IT resources are expensive, and are best used for strategic projects. OneNeck managed services relieves your IT team from handling routine maintenance and troubleshooting, leaving them free to focus on mission-critical initiatives.
