

JD Edwards Solutions

Managing complex ERP environments to reduce costs and improve operations

Businesses may be founded on ideas, but they run on data.

With more data than ever at our fingertips about customers, supply chain, the competition, manufacturing and other business processes, it's critical to have the right ERP system in place. For many mid-size businesses, a JD Edwards EnterpriseOne solution offers the power, security and functionality needed at an affordable price.

However, challenges often arise in the implementation and management of an enterprise system. That's where OneNeck® IT Solutions comes in.

Supporting Superior Solutions

OneNeck helps customers host, manage, upgrade and maintain their JD Edwards applications. We help ensure these applications improve business processes, reduce costs and provide support for better management decision-making.

With unmatched expertise, proven experience and excellent customer references, we're well qualified to manage your JD Edwards environment. In fact, OneNeck offers:

- One of the top independent JD Edwards hosting and application management firms in North America
- Extensive AS/400 experience
- Hard-to-find CNC resources

Since 1997, customers have relied on OneNeck for their strategic IT initiatives. Our extensive experience in ERP systems management helps them get the most out of their IT investments, systems support, updates and migration paths.

When it comes to your JD Edwards environment, OneNeck provides custom-tailored solutions on any platform. Our team of highly skilled specialists works across all JD Edwards application releases and is experienced in a wide-range of industries. The team's ongoing education and training on JD Edwards

applications, around-the-clock support, JDE-specific Sarbanes-Oxley Section 404 expertise and guaranteed service levels are just a few of the reasons we'd put our JD Edwards hosting services team up against anyone in the industry.

OneNeck's partnership with industry-leading solution providers such as Oracle allows us to provide complete, flexible and customized solutions. Through our customer-first delivery model, we enable customers to maintain complex ERP environments on a cost-effective and predictable basis.

Our deep understanding of ERP systems has led us to develop a unique decision tree model that assists our customers in selecting the best migration path. Using our ROI-based model, we deliver the optimum business value while minimizing the migration risk.

OneNeck helps customers host, manage, upgrade and maintain their JD Edwards environments, enabling them to improve business processes, reduce costs and provide support for better management decision-making.

OneNeck Oracle Solutions

We provide a variety of solutions that deliver maximum value to our customers' JD Edwards EnterpriseOne, Xe and JD Edwards World environments.

As a Certified Oracle Hosting Service Provider, our partnership proves our ability to provide managed services for businesses and consumers. This partnership demonstrates our competency, based on past performance, to deliver best-of-breed solutions with increased levels of support and engagement centered on your increased investment and commitment to Oracle. OneNeck IT Solutions is able to support all Oracle ERP products including PeopleSoft Enterprise, JD Edwards EnterpriseOne, JD Edwards World, Hyperion and Oracle E-Business Suite.

What Makes Us Different?

It's all about intimacy. We get to know you and your business and only then develop strategies to manage your IT systems productively, efficiently and economically. We design solutions that contribute to your organization's growth and success. As businesses compete in increasingly complex markets, OneNeck helps optimize IT efficiencies to reach your company's peak performance.

OneNeck JD Edwards EnterpriseOne Solutions

OneNeck designs total solutions, one customer at a time. It's a configure-to-order philosophy that tailors every solution to each customer's specific situation. We're able to scale our solutions as your business grows.

We fully understand the complexity of your JD Edwards environment. That's why we enter into deep partnerships with our clients, providing both proven technical knowledge and business acumen in a team of IT professionals dedicated to their craft and your business.
