

Brian Clarke
Solutions Architect—Networking and Collaboration

Areas of expertise:

- Software Defined: SD-WAN
- Software-Defined: ACI
- Collaboration

Brian Clarke is a Solutions Architect at OneNeck. In this role, he is responsible for network-related customer solutions. Brian is primarily focused on Cisco solutions across all network specializations, including Enterprise Networking, Data Center and Collaboration services. Brian works with customers to clarify needs, identify potential solutions and provide ongoing support to ensure their continued trust and confidence in the OneNeck partnership.

Prior to joining OneNeck in 2010, Brian amassed more than 20 years of experience in the IT industry. He gained experience leading an IT training and consulting firm in Des Moines, Iowa, and traveled the globe as an independent contractor providing training and consulting services.

Brian maintains several designations across relevant technology specializations, including several Cisco Network Professional and Design Professional certifications.
